Dear Film Festival Attendees,

I am delighted to see the Taos Mountain Film Festival reach its seventh year. I have always hoped to see Taos develop into a film festival town and the Mountain Film Festival now leads the way. The three days of film present topics of adventure and exploration from the far reaches of the globe while touching upon relevant issues affecting our communities that are important to consider and discuss. My best wishes to its staff and board.

Sincerely,

Bill Richardson, Governor
